NATIONAL AWARDS - 2014

1. OBJECTIVES

The Micro, Small and Medium Enterprises (MSMEs) in India have undergone a vast development in the last five decades. The MSMEs have registered tremendous growth as also the progress in terms of quality production, exports, innovation, product development and import substitution, very much beyond the expected objectives of setting up MSMEs by the planners of industrial production base in the country. Entrepreneurial efforts have made it possible to produce number of items, which hitherto were imported. In quite a few cases new variants so produced are having additional attributes than their original versions and are capable of solving a multitude of user problems.

The Indian entrepreneurs are very creative and innovate new products and process as well as provide innovative services to remain competitive in domestic and global market. The Ministry of MSME recognize these entrepreneurs for their outstanding innovations in products/process and by conferring awards to motivate and encourage them.
