Brief Industrial Profile of Burdwan District (WEST BENGAL)

1. General Characteristics of the District:

Burdwan is one of the most important districts of the State of West Bengal in terms of size and span. It is located between the latitude 23°53' N and 22°56' N and between the longitude 88°25' and 86°48'.

The district has a total area of 7024 sq. kms and is bordered by Birbhum in the north, Murshidabad in the north-east, Nadia in the east, Hooghly and Bankura in the south and Purulia in the south-east.

1.1 Location & Geographical Area:

Location of Burdwan district

District	Latitude		Longitude		Latitude	Longitude
	North	South	East	West	North	East
Burdwan	23°53' N	22°56' N	88°25'	86°48'	23°14'	87°51'

1.2 Topography

The soil of the eastern part of Burdwan district is of rich alluvial variety and is suitable for intensive cultivation of paddy, wheat, potatoes and other crops and vegetables. The soil of the western part of the district is reddish and is not that fertile.

The district of Burdwan is extremely fortunate in being girdled by three major rivers – the Hooghly on the east, the Ajay on the north and the Damodar on the south. Apart from these three, there are myriads of minor rivers and streams which criss-cross the district.

1.3 Availability of Minerals.

3.6 Growth Trend

Market analysis forms an important part of the industrial potentiality survey of a district because it provides some information on indicators such as nature of exchange, the level of economic activities, the possible extent of forward and backward linkages, the overall dynamics of wholesale and retail centres and the extent and quality of sales promotion and marketing efforts of various agencies, etc. which prove to be very useful to planners, financial agencies and individual entrepreneurs in promoting small scale, cottage and village industries in a given region. As such, while planning the development of a district, considerable stress should be given on the creation of market infrastructure.

This district enjoys a comfortable position as far as marketing is concerned because it is very well connected with the huge market of Kolkata on the one hand and the towns of Bolpur, Bankura and also the North Indian States on the other. Burdwan district serves as a centre from where different types of consumer durables are supplied to the state of Bihar and to the neighbouring districts. Birbhum, Bankura and the coal belt of Bihar serve as ready markets for the myriad products of Burdwan district.

Moreover, the district itself provides a large market for its own products. The aggregate size of the consumer goods market of the district is significantly large. Field investigation also reveals that the urban centres, viz. Durgapur, Burdwan, Asansol, Raniganj, Chittaranjan, Kalna and Katwa have a large and growing middle class and upper middle class population and provide an attractive market for various consumer durables and non-durables. These urban centres also serve as wholesale markets as far as consumer goods are concerned and another basic function of these markets is to act as intermediate points for procuring consumer products from Kolkata and Burdwan and other parts of the State and for distributing the same to various markets both in the urban and rural areas in and outside the district.

Besides the urban centres, the rural areas of Burdwan district which are agriculturally well developed also provide a large market for consumer goods and agricultural implements.

Moreover, the large and medium scale industries provide a large market for numerous MSE units, leading to a large degree of ancillarisation.

Industrial projects implemented in the district

Year	No. of Units	Invt. (In Cr.)
2008	26	931.69
2009	17	550.72
2010	35	10773.53

3.7 Vendorisation / Ancillarisation of the Industry

In a district like Burdwan which is both agriculturally and industrially well developed, it is only expected that a large number of small scale and ancillary industrial units will come up and flourish.

The State Govt. is actively promoting MSE units as ancillaries to large and medium scale industries. Special efforts have been made by the State Govt. to motivate large public sector units to adopt MSE units as ancillaries. The numbers of MSE units given ancillary status are:

<u>Name of the Public Sector Unit</u>	<u>No. of units given ancillary status</u>
1) Durgapur Steel Plant	33
2) Alloy Steel Plant	6
3) Hindustan Cables Ltd.	6
4) Burn Standard Co.	9

3.10 Industrial Scenario

Infrastructure: Power position is good. Burdwan is about 100 k.m. from Kolkata. Most of the potential areas are connected with motor able roads. Availability of water is satisfactory. There is one Industrial Estate at Saktigarh.

Type of existing industries: Modern Rice Mill, Rice Bran Oil, Cold Storage, Oil Mill, Chira Mill, Bakery, L.P.G. Gas Filling Plant, Trasformer manufacturing/repairing automobile spare parts etc. This district is rich in handicrafts also. The degree of excellence of products like, Sola Craft of Bonkapasi Village and Dokra of Dariapur is now acceptable to European markets. There are rural wood carving artisans who are maintain the continuity of their traditional art.
