

SUGGESTED PROFORMA

INFORMATION ON PRODUCTS/SUB-SECTORS/TECHNOLOGIES PROPOSED FOR CONSIDERATION UNDER CLCSS *(Separate details required for separate Products/Sub-Sectors /Technologies)*

(A) Requisite Information:

1. Number of units using the proposed technology and number of people employed by these units .
2. Likely demand of the product to be manufactured through the application of new technology.
3. Percentage of SSI units as a proportion of the total units in the industry engaged in the manufacturing process.
4. Relative cost of existing as well as new technology.
5. Impact of adoption of new technology on energy consumption/savings.
6. Qualitative improvement in the product and the likely benefits accruing to the consumers through the application of new technology.
7. Details of manufacturers/fabricators of the suggested machines and equipments.

(B) Specific Information:

Name of the Unit/Product/Sub Sector/Technology...

Sl. No.	Item for consideration	Machines and equipments commonly used	Suggested machines and equipments of upgraded version recommended for assistance under CLCSS, as per the definition of technology upgradation under the Scheme	Approximate cost (Rs.)	Relative benefits of installing each upgraded version of machines and equipments
