

Minutes of Pre Bid Meeting

ICB No. 21/TCSP/GOODS/P1/2015/TR/TC (Package -1)

Minutes of the Pre-bid meeting of International Competitive Bidding (ICB) held on 19.05.2015 at 3.00 P.M. in the Committee Room of Office of DC (MSME) for supply of 37 lots of testing & calibration equipment required for IDEMI, Mumbai.

A pre-bid meeting was held today on 19.5.15 at 3.00 PM in the committee room, office of DC,MSME, Nirman Bhawan under the Chairmanship of Sh. R.K.Pandey, Joint Development Commissioner, O/o DCMSME, for the prospective bidders for the ICB to supply 37 lots of testing and calibration equipment for IDEMI under World Bank assisted Technology Centre Systems Programme. List of participants is enclosed at Annexure-1.

At the outset, Shri Ramesh Kumar Pandey, Joint Development Commissioner warm welcomed all the designated representatives, present in the pre-bid meeting and gave a detailed background of TCSP.

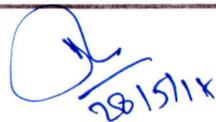

He informed to the participants that if there is any query and doubt, they can raise those queries and if possible, we shall try to reply those queries here itself otherwise, the reply will be given after due consideration and will be uploaded on our web-site.

The designated representatives of the participating organizations raised their queries during the pre-bid meeting. They were asked to give their queries in writing so that same can be considered and approved by the competent authority before uploading on the website of O/O DCMSME. They were also requested to visit website regularly to get timely updates.

The compilations of the queries raised by participants and response to queries are as follows:

2015/15

Sr. No.	Query	Response of the Client
1.	For an authorized representative to bid, for points (iii) and (iv), the past supplies requirements (i.e. 3 times the quantity and satisfactory operation for at least 1 year) and satisfactory performance statements, is it good enough if these documents come from the original manufacturer or should these come from the Authorized representative?	Please refer to clause 3.1 (iv) of Section III Evaluation and Qualification Criteria Also Sr No. 14 of Addendum/Corrigendum dated 28 th May, 2015
2.	<p>Clause 3.1 (Post Qualification Requirement)-ITB 36.1 (I to V) We would be representing Foreign Manufacturer as their authorized exclusive representative for India.</p> <p>We like to mention that the instruments we would be bidding get supplied in very few Quantities over various years due to their nature, application and customer profile. Also we started representing Foreign Manufacturer since 2012 only.</p> <p>In view of above we are not available with supplies of asked instruments in the tender. However we received orders/supplied various other high voltage and extra high voltage equipments to various customers which we feel should be sufficient for establishing our capabilities and credentials. In European/US countries, there is no practice of obtaining performance certificate from customers after supply.</p> <p>Our expectations/requirement for qualification (i) Allow us to submit the credentials of our principals who is renowned test and measurement company in the world. (ii) Allow us to submit details of supplies of other than tender requirement to establish our capabilities of credentials for tender bidding.</p>	No amendment is considered necessary. Also refer Sr No. 14 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
3.	Please note in case you insist on pre dispatch inspection then the duration required for inspection be added as grace period to the delivery schedule as per this tender.	Refer Sr No. 18 and 23 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
4.	Delivery period should be excluded from inspection period.	Refer Sr No. 18 and 23 of Addendum/Corrigendum No. 1 dated 28 th May, 2015

28/5/15

5.	We request you to consider inspection duration as a grace period to the delivery schedule given in the tender terms.	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
6.	Delay in Inspection/ Third party appointment. Delay in supply due to third party inspection or third party appointment on whose account.- please clarify .	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
7.																						
8.	Delivery schedule- Since the items required are very high precision & they require a long lead time for manufacturing and calibration. It is therefore requested to be extend the delivery schedule to 28 weeks.	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
9.	Delivery Terms – Page 77 The delivery period indicated in the Table above is the required delivery period. However, the offered Delivery period beyond the above mentioned delivery requirement for each Lot shall be acceptable upto a maximum of 6 weeks for individual Lot subject to adjustment of Bid Price as mentioned in Bid Data Sheet ITB 34.6. Offers with the delivery period beyond 6 weeks over and above the delivery period indicated in the Table above shall be treated non responsive Does this indicate that any delivery period mentioned beyond 6 weeks above expected delivery period will result in bid rejection, as some of the instruments have standard higher delivery period.	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015 Yes, Bidder offering delivery period beyond 6 weeks over and above the required delivery period will be treated as non responsive																				
10.	Delay due to calibration certification Since renowned labs like PTB or equivalent have very high lead time for issuing calibration certification which will affect expected delivery schedule in that case how LD will be calculated- please clarify.	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
11.	Delivery Period: Including calibration would be 16-20 weeks for above mention items.	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
12.	The delivery asked vide schedule 1 of section VII “ List of Goods and Delivery Schedule”	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015																				
	<table border="1"> <thead> <tr> <th>Sr. No.</th> <th>Lot No.</th> <th>Delivery Period</th> <th>Required Delivery Period</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Lot No. 11 Mobile CT/PT calibration</td> <td>24 Weeks</td> <td>OK for us</td> </tr> <tr> <td>2</td> <td>Lot No. 17 Precision Energy Standard</td> <td>12 Weeks</td> <td>OK for us</td> </tr> <tr> <td>3</td> <td>Lot No. 15 ICT calibration system</td> <td>12 Weeks</td> <td>We require minimum 24 weeks</td> </tr> <tr> <td>4</td> <td>Lot No. 35 Portable 3 phase</td> <td>16 Weeks</td> <td>OK for us</td> </tr> </tbody> </table>	Sr. No.	Lot No.	Delivery Period	Required Delivery Period	1	Lot No. 11 Mobile CT/PT calibration	24 Weeks	OK for us	2	Lot No. 17 Precision Energy Standard	12 Weeks	OK for us	3	Lot No. 15 ICT calibration system	12 Weeks	We require minimum 24 weeks	4	Lot No. 35 Portable 3 phase	16 Weeks	OK for us	
Sr. No.	Lot No.	Delivery Period	Required Delivery Period																			
1	Lot No. 11 Mobile CT/PT calibration	24 Weeks	OK for us																			
2	Lot No. 17 Precision Energy Standard	12 Weeks	OK for us																			
3	Lot No. 15 ICT calibration system	12 Weeks	We require minimum 24 weeks																			
4	Lot No. 35 Portable 3 phase	16 Weeks	OK for us																			

	Power /Energy Meter calibration system with reference meter			
13.	As per ICB Terms and conditions the delivery period will be 12 weeks. In regards to the same we would like to inform you that our principal will provide the calibration certificate for DC values in 12 weeks but for AC values the calibration will be done from the NMI which requires more time. So, we are requesting you to kindly change the delivery schedule as 24 weeks instead of 12 weeks	Refer Sr No. 18 of Addendum/Corrigendum No. 1 dated 28 th May, 2015		
14.	Lot No. 32: Please clarify about pre-dispatch inspection as this product is manufactured in Japan and is being imported by us as a complete off the shelf product, we would like to request to remove the pre dispatch inspection clause for this item/lot.	Please refer to SCC clause 26.2 Also, refer Sr No. 18 of Addendum/Corrigendum No. 1 dated _____28 th May, 2015		
15.	Price schedule-6, column no-4- You have asked the delivery date, whereas the delivery mentioned in week. Please clarify how can we decide the date of delivery and in column no.-5 you have asked for quantity and physical unit. Please clarify can we mention in set or not	Refer Sr No. 19 of Addendum/Corrigendum No. 1 dated 28 th May, 2015 Last column of Form – 2 List of Related services and completion schedule of Section VII indicate the time for completion of services. In column no. 4 of Form 6 of Section IV Bidding Forms, Bidder should indicate the offered delivery period for the related services. Column 5 (Quantity and Physical unit only may be filled where considered relevant).		
16.	Ref Service Sl. No. 2, 3, 4 & 5 – you have indicated final completion dates as 2-4 weeks from date of delivery of equipment at site. The anechoic chamber & system cannot be installed within 4 weeks. The minimum required period for completion of services will be 16-20 weeks after delivery at site.	Refer Sr No. 19 of Addendum/Corrigendum No. 1 dated 28 th May, 2015		
17.	Page 75-Delivery- Delivery mentioned is 40 weeks is it including installation and acceptance as installation also depends upon readiness of site. What if site is not ready? Who is responsible for the delay caused due to non-availability of site	Refer Sr No. 19 of Addendum/Corrigendum No. 1 dated 28 th May, 2015		

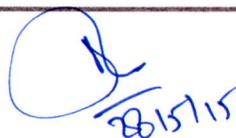

18.	Please confirm whether IDEMI will provide custom duty exemption certificate and octroi exemption certificate.	Refer Bid Data Sheet BDS clause ITB 14.8
19.	Octroi- IDEMI to provide necessary Octroi Exemption certificate.	Refer ITB 34.5
20.	What duty, taxes, octroi exemption letters will be issued if quoted in Indian rupees	Refer BDS clause ITB 14.8
21.	Please let us know the list of document which we need to submit to you to obtain necessary customs clearance, project authority certificate.	Refer BDS clause 14.8
22.	When will the CDE be provided if applicable?	Please refer BDS column ITB 14.8
23.	Whether IDEMI can issue Form "C".	Please refer ITB clause 34.5
24.	Please confirm whether IDEMI as a consignee will give concessional Custom Duty Exemption certificate and Octroi Exemption Certificate. We would like to see copy of CDE cert. available with you so that applicable concessional custom duty can be evaluated and considered in offer.	Refer BDS clause ITB 14.8 & ITB 34.5.
25.	Our products are from USA, can we quote EX works/ Ex-factory price? Will you nominate freight forwarder?	Contents of Bidding document are self-explanatory. Refer ITB clause 12 and 14
26.	Lot - 25, 28 & 29. We would like to bid in INR, Custom Duty Exempted price, who will give the Custom Duty Exemption certificate (Project Authority Certificate). What type of document you required to issue the same. Kindly confirm the time frame for above certificate and in which form No. we have to bid above price.	Please refer ITB clause 12, 14 and 34.5. Also refer Sr No. 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
27.	Custom Duty - Kindly confirm how much custom duty is applicable for this project/IDEMI. In case, if we quote in INR, kindly advise the exact % of custom duty applicable and necessary documents being provided by purchaser for clearance of material on concessional duty.	Please refer ITB clause 12, 14 and 34.5. Also refer Sr No. 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
28.	Will you provide CDE certificate, if yes, will it be 0% custom duty or basic duty will be applicable? You have mentioned we will provide documents for custom clearance but not clear on CDE certificate will be issued?	Refer ITB clause 14 and BDS clauses of ITB 14.8. Also refer Sr. No. 1 – Form 6 (Price and Completion Schedule of

 28/5/15

		Related Services) given under Section IV bidding forms.
29.	<p>Wish to quote on behalf of Foreign Manufacturer whom they represent on exclusive basis in India. In this case Indian Representative shall quote:</p> <ul style="list-style-type: none"> • In US\$ with payment & order to be placed in favour of Foreign Manufacturer. In this case can we submit the EMD from Indian Representative, India? Shall be provided or Indian Representative • In INR, with payment and order to be placed in favour of Indian Representative. In this case sales tax, octroi & custom duty exemption shall be provided by IDEMI. 	<p>Please refer ITB clause 12, 14 and 34.5.</p> <p>Also refer Sr No. 16 of Addendum/Corrigendum No. 1 dated 28th May, 2015</p>
30.	<p>Pg: 55 3. Price Schedule : goods Manufactured Outside the purchaser's Country, to be Imported point 8.</p> <p>The Indian Representative is a sole representative (agent) of the Foreign Manufacturer. Indian Representative like to bid this tender as bidder, therefore, we would be needing to import the goods from the our foreign principal (Foreign Manufacturer) as CIP basis + Import Duties & Taxes + Other charges. As we would need to import after paid import duties and taxes, our cost would increase by almost 27% due to duties and taxes.</p> <p>Because of above, our quote in INR to the IDEMI as bidder would increase by 27% of custom duties and taxes.</p> <p>Sir, tender document does not specify the above situation and to maintain parity with others, we should also get import duties/taxes exemption while imported goods from our principle for IDEMI. The bid evaluation would be done by the IDEMI on the CIP basis excluding import duties/taxes which would make our bid substantially increased due to import duties/taxes.</p> <p>Sir, kindly revert and clarify us how to avail the duties and taxes exemption. We also request IDEMI to allow Indian bidder to get import duties/taxes exemption through an arrange with Indian Government (Custom Authorities). We as Indian Representative, a 50 year old domestic company in the field of test and measurement and are very keen to bid the tender however it should put us on disadvantageous position because we would needing pay import duties/taxes.</p>	<p>Please refer ITB clause 12, 14 and 34.5.</p> <p>Also refer Sr No. 16 of Addendum/Corrigendum No. 1 dated 28th May, 2015</p>
31.	Whether MSME will issue Form 'C' against Central sales tax, if new quote in Indian Rupees, as our offer would be for imported Instruments.	Please refer ITB clause 12, 14 and 34.5 and BDS clause ITB 14.8
32.	Whether MSME is exempted for Custom Duty, and will issue Custom Duty Exemption Certificate.	Please refer ITB clause 12, 14 and 34.5

Handwritten signature and date: 28/5/15

		and BDS clause ITB 14.8.
33.	Please let us know under which notification MSME is exempted for Custom Duty.	Please refer ITB clause 12, 14 and 34.5 and BDS clause ITB 14.8.
34.	If we quote in INR, will you be providing C form for applicable sales tax of 2% or full VAT of 12.5% will be applicable?	Refer ITB clause 12, 14 and 34.5.
35.	Whether CST transaction is allowed against form C by IDEMI and whether form C shall be given in the same financial year.	Refer ITB clause 12, 14 & 34.5.
36.	Whether CST transaction is allowed against form C by IDEMI and whether form C shall be given in the same financial year.	Refer ITB clause 12, 14 and 34.5.
37.	Please confirm, if we invoice from Free Trade Warehouse Zone, place near to Andhra Pradesh , in which the benefits of concessional custom duty can be availed off and to be paid by consignee. Further local taxes are not applicable – whether the same is acceptable.	Refer ITB 12, 14 & 34.5 and Bid Data Sheet clause ITB 14.8.
38.	Whether CST transaction is allowed against form C by IDEMI and whether form C shall be given in the same financial year.	Refer ITB clause 12, 14 & 34.5.
39.	a) Ref Service SI no. 1 Please clarify what is 'Project authority certificate'?	Refer ITB clause 12, 14 and 34.5 and BDS clause ITB 14.8
40.	c) Ref service no. 1 – Will you provide Customs duty exemption certificate? What is the duty applicable to MSME/IDEMI for this supply? Will you provide exemption certificate for Octroi?	Please refer ITB clause 12, 14 and 34.5 and BDS clause ITB 14.8
41.	Refer: ITB 14.8 (b)(i) CIP: Mumbai India air/sea port as applicable. The terms "CIP" and "Final destination" shall have the meanings as defined in INCOTERMS 2010 or latest. In addition, a representative of the supplier shall arrange custom clearance of the goods at the port of destination and the unloading of the goods at Final Destination (Project Site). The necessary documents required for custom clearance shall be provided by the Purchaser. Participant Comments: Isn't this the same as Incoterms DDP?? Custom's Clearance – Do we need to quote for Customs duty & Clearance Charges? It would be preferable for IDEMI to clear customs for all the goods related to Lot no. 2	No, it is not same as DDP. Please refer ITB clause 12, 14 and 34.5 and BDS clause ITB 14.8 Also, refer Sr No. 6 and 7 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
42.	You have mentioned 24/30 months warranty, however as per our principle standard warranty is 12 months.	Refer Sr No. 24 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
43.	We are evaluating option of quoting extended warranty from factory. In case if we quote 5 years	Refer Sr No. 24 of

	warranty with the main unit in direct import US dollar offer. Please confirm the mode of payment. General practice in such type of case is onetime payment to the manufacturer.	Addendum/Corrigendum No. 1 dated 28 th May, 2015
44.	<p>3. Ref Section VIII GCC, P 242, Item 28, Warranty & SCC 28.3 which states the warranty for Lot no. 2 as 10 years. – This is not practical for the following reasons :</p> <p>a) The tender consists of 2 parts- Anechoic Chamber & System part.</p> <p>b) The Anechoic chamber consists of some moving parts (Doors) & some consumables (Lamps) & parts which are subject wear & tear (gaskets & finger stocks) which do not carry 10 years warranty. The industry standard is 24 -36 months for the anechoic chamber with the exception of Absorbers, which are guaranteed for 10 years.</p> <p>c) The system part includes all electronic instrumentation like Amplifiers, Signal Generators, Receivers, Antennas, etc which carry a manufacturer’s warranty of not more than 24 months.</p> <p>d) A ten year warranty will have to include activities like Calibration of instruments, Calibration of anechoic chamber for a period extending upto 10 years by an external accredited agency. There are no agencies in India which carryout this activity & if it has to be calibrated every year, the costs for 10 years will add upto more than the cost of Lot no.2. Moreover, the laboratory will have to evolve frequency of calibration required & the accreditation authorities depending on the nature of their activity.</p> <p>e) Considering the above facts, we request you to consider the Warranty to be limited to 24 months /30 months like in the case of the other lots. You may specify the warranty for performance of the Absorbers for a longer period of 10 years.</p>	Refer Sr No. 24 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
45.	AMC – Comprehensive AMC with re- calibration and covering spare parts for such a long time period may not be feasible and hence may be amended to AMC, without calibration & spare parts.	Refer Sr No. 21 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
46.	<p>Refer: GCC 28.3</p> <p><i>(i) In partial modification of the provisions warranty period shall be as under</i></p> <p><i>a. For Lot No. 2 (Anechoic Chamber):Ten (10)years from date of acceptance of equipment or 10 years and six months from the date of shipment/dispatch to consignee whichever occurs earlier.</i></p> <p><i>b. For all other Lots: Twenty four (24) months from date of acceptance of Equipment or Thirty (30) months from the date of shipment/dispatch to consignee whichever occurs earlier.</i></p> <p>Participant Comments: Warranty cover for Lot No. 2 / Anechoic Chamber is 10 years – What about Lot No. 2/ Instrumentation?? Standard warranty periods offered by OEMs of different instrumentation types, are between 1 to 3 years. Even extended warranties offered by few are for another 2-3 years max; but certainly not up to 10 years.</p> <p>What about equipment calibrations during warranty period??</p>	Refer Sr No. 24 and 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015

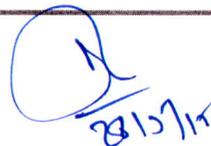

47.	Additional warranty to be included in the price or has to be mentioned separately? Please clarify	Information provided in the bid document is sufficient
48.	Payment: Our payment terms would be 20% advance against order, balance 80% against successful installation and commissioning.	No amendment is considered necessary.
49.	We request you to consider payment terms as, 100% Irrevocable LC. We can submit BG for 20% till successful installation and acceptance of material with 5% PBG for warranty period.	No amendment is considered necessary. Refer SCC (GCC 16.1).
50.	We request you to consider payment terms as, 40% advance against ABG, 50% against dispatch documents, and 10% after successful installation and acceptance of material with 5% PBG.	No amendment is considered necessary.
51.	We recommend Terms of Payment as under: 10% Advance and 90% against delivery with 5% PBG for 3 years.	No amendment is considered necessary
52.	Will IDEMI make multiple payments against such staggered shipments?	Refer to SCC clause GCC 16.1
53.	Clause 28.7.b Post Warranty -Repair/ calibration within 7 days –that is insufficient time for recalibration of the equipment in case if the equipment needs to be sent to the overseas manufacturers. In our view, it should be atleast 6-8 weeks.	Refer Sr No.26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
54.	The Noise level meter can be calibrated by IDEMI yourselves. So do you still require re-calibration price to be quoted by us.	Refer Sr No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
55.	AMC – which involves a cost of comprehensive warranty with spares, recalibration wherever necessary at factory in USA, to and fro transportation charges, custom duty as applicable etc, as per our calculation we feel 8% AMC charges per year mentioned in tender documents is not feasible. We suggest for a non-comprehensive AMC that includes labour charges alone. Parts and re-calibration, if required will be quoted as and when required.	Refer Sr No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
56.	10 years warranty can be provided for Chamber whereas we can able to prove only 10% PBG for one (1) year for the system. Please clarify.	Refer Sr No.21 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
57.	Comprehensive AMC Please clarify the NPV calculation for bid evaluation and do we have to load our prices. During AMC period, if components needs to be replaced, duties to be paid on buyers or sellers account-please clarify We request for dropping the LD clause in AMC as it's totally depend upon the services required based	Refer Sr No. 8, 12, 13, 15, 20 and 22 of Addendum/Corrigendum No. 1 dated 28 th May, 2015

 DL
 28/5/15

	<p>on needs in case of any breakdown. Please clarify the payment procedure for AMC Response time for replacement of component should be increased to 20 days instead of 72 hours considering the time for importing the spares because storing all spares are not possible and commercially not feasible.</p>	
58.	We need Format of Power of Attorney to be attached along with tender documents.	No specific format is considered necessary. Power of attorney in favour of authorized signatory on bidders letter head is acceptable.
59.	Power of attorney to be given on bond paper, any specific criteria on the same? Who can issue Power of attorney	No specific format is considered necessary. Power of attorney in favour of authorized signatory on bidders letter head is acceptable.
60.	We need Format of Power of Attorney to be attached along with the tender documents. Whether it is allowed on letterhead or stamp paper	No specific format is considered necessary. Power of attorney in favour of authorized signatory on bidders letter head is acceptable.
61.	We need format of Power of attorney to be attached along with tender documents. Whether it is allowed on letterhead or stamp paper. Please confirm.	No specific format is considered necessary. Power of attorney in favour of authorized signatory on bidders letter head is acceptable.
62.	Clause 20.2 Kindly provide a format of power of attorney.	No specific format is considered necessary
63.	<p>Ref Section IX of SCC , P 262 , GCC 28.7 , sl. No. b) Post warranty Comprehensive maintenance contract - This states that it should be provided for a period of 3 years from the completion of Warranty period which is specified as 10 years for Lot 2. This implies that AMC will have to be provided for 11th , 12th & 13th year.</p> <p>This is not practical since the instrumentation would have completed or will be at the end of its life cycle & no manufacturer of instrumentation will commit support for the same.</p>	Refer Sr No. 8, 12, 13, 15 and 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
64.	The tender asks to spare support availability for 10 years. However, worldwide policy dictates equipment spare support is warranted for 5 years from product dis-continuation which is the industry norm	Refer Sr No. 8 of Addendum/Corrigendum No. 1 dated

 28/5/15

	worldwide and you are requested to please adopt the same.	28 th May, 2015
65.	Tender document asks for Spare support availability for 10 years. However, for all such equipment spare support is guaranteed for 5 years from the discontinuation of products which is general practice of most of the reputed manufacturers.	Refer Sr No. 8 and 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
66.	Whether High Sea Sale is allowed in above tender, as End Consignee can on Custom Duty and Local Tax.	Contents of Bidding document are self-explanatory
67.	Clause 14.8.b.1 Can we quote on High Seas Sale Basis	Contents of Bidding document are self-explanatory
68.	The IEC standard mentioned in the Lot 32 noise level meter is not related to the same product for a class 1 meter. You are requested to amend the same from IEC 67672-1 to IEC 61672-1	Refer Sr No. 35 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
69.	As we seek multiple clarifications, you are requested to extend the pre-bid meeting and bid submission date by at-least 21 days from amendments.	Refer Sr. No. 3, 4, 10 and 11 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
70.	We request you to extend the due date of Bid Submission by 30 days.	Refer Sr. No. 3, 4, 10 and 11 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
71.	Since the preparation of the response to the tender requires voluminous information to be compiled and provided, we request you to consider extension of the due date by 21 days.	Refer Sr. No. 3, 4, 10 and 11 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
72.	Please give the Extensions of the due date till July	Refer Sr. No. 3, 4, 10 and 11 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
73.	Last date of Bid submission Since the clarity is being asked on various technical and commercial points as per bid. Documents which will be represented on 19 th may, after which time will be insufficient to submit the bids in due course of time hence it is requested to kindly extend the bid submission date at least by one month's time i.e. 8 th July 2015.	Refer Sr. No. 3, 4, 10 and 11 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
74.	Kindly define the Scope of Pre-dispatch Inspection and also confirm which agency will be involved. Also confirm whether IDEMI will do any pre-dispatch inspection and for which item.	Please refer SCC 26.2
75.	Please confirm which agency will do pre dispatch inspection and also confirm IDEMI will do any pre dispatch inspection and for which item.	Please refer to SCC clause 26.2
76.	From the lot there are few equipment's that IDEMI can calibrate themselves. Still do you need recalibration cost to be quoted by us.	Refer Sr. No. 26 of Addendum/Corrigendum No. 1 dated

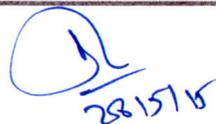

28/5/15

		28 th May, 2015
77.	From the lots there are few equipments (Lot 33 and 34) that IDEMI can calibrate themselves with required CMC. Still do you need recalibration cost to be quoted by us.	Refer Sr. No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
78.	Recalibration- In the event of recalibration or repair where the equipment needs to be sent to overseas Principal, the documentation would need to be done by IDEMI.	Yes
79.	Please confirm whether various bank guarantees such as EMD, Security deposit and PBG are acceptable from Citi Bank (Reputed International Bank) in Indian Rupees.	Refer BDS clause ITB 19.3 and SCC clause 18.1
80.	Our manufacturing facilities are in USA and we are evaluating option of quoting in US Dollars on Foreign Manufacturer USA. However, we being Susidiaryof Foreign Manufacturer , USA in India would prefer to give all kind of Bank Guarantee locally in Indian Rupees. Hope this is acceptable. Please note this process is acceptable by all govt. organizations. However, local tools can be offered from Indian Subsidiary. India, in Indian Rupees with local taxes as applicable and local service/AMC can be quoted from Sister concern company of Foreign Manufacturerin India and common service provider for all our Test & Measuring instrument Portfolio)	Refer to BDS clause ITB 19.3.and Annexure A of Bid Data Sheet. Refer to ITB 15 and BDS Clause 15.1
81.	Form of Bid Security /performance security/advance payment The formats of various bank guarantees seems to be very different from Normal BG format which needs to be refer to our bank to check their ability to issue the same as their policy Our Expectation Kindly allow flexibility in the BG format if format are not accepted by the bank however we shall strive to get the same from the bank.	Refer ITB clause 19.3
82.	Being a foreign operated company, we have been furnishing BG by way of SBLC to Indian customers including Government??	Please refer to BDS clause ITB 19.3 and Anexure A at the end of Bid Data Sheet. Also, refer Sr No 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
83.	We are the sole distributors of many foreign principals and we are authorize to bid on their behalf because we have an authorization certificate from them. So will it be possible that we can quote on their behalf in foreign currency and the PO will be release in favour of our principal. Please confirm	Refer Sr No. 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
84.	In case our principle quote directly from Outside India and all activities mentioned in schedule 6 " price and completion schedule- Related Services" from Sr. no. 1 to 5 &7 will be arranged by us from India	Refer Sr No. 16 of Addendum/Corrigendum No. 1 dated

Handwritten signature and date: 28/5/15

	i.e. Indian Representative . Then who will get the payment in INR for related services either our principle or us. Ltd and what are the terms and condition to get this payment, Please clarify?	28 th May, 2015
85.	You have asked for 1 original, 4 copies of our tender bid, can we take one original print and 4 xerox copies or do we need to take 5 prints of entire bid documents? 1 softcopy of bid is also asked.	No clarification is considered necessary
86.	In case of manufacturer's Indian subsidiary is quoting then no authorization is required, please correct if we are wrong (i.e. Foreign Company, USA is manufacturer and we have Indian subsidiary 2 i.e. , India, we are proposing to quote from Indian entity).	Refer BDS clause ITB 17.2 (a) and also clause 3.1 of Section III Evaluation and Qualification Criteria. Also refer S.No. 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
87.	Factory USA training cost will be the part of main unit cost. However, you have mentioned separate heading on page no. 60 point 6 (table 6) for above training cost. We request you to allow these charges to be quoted along with the main unit.	No amendment is considered necessary. Also refer S.No. 15 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
88.	For certain lots you have asked factory training, however it should not be connected with delivery schedule and training can be given for same product with different serial number.	No amendment is considered necessary.
89.	You have mentioned 24 months warranty for instruments after repairs under warranty period. However, as per our company policy we can give repair warranty of 60 days.	Refer S.No. 25 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
90.	We are subsidiary in India & manufacturing facilities in USA. We would like to quote from India but P.O. can be placed directly to USA manufacturing facility. Also all EMD/ BG/PBG will be given by us from India. Is it acceptable? In case the above point is accepted, please allow us to quote AMC charges from India, PO to be splitted in different currencies	Refer Sr. No. 16 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
91.	For spare support we recommend for 5 years from the discontinuation of product.	No amendment is considered necessary
92.	In case if we quote 5.5 years warranty with the main unit whether it is acceptable.	Contents of Bidding document are self-explanatory
93.	Ref section VII, Schedule of requirements , (2) List of Related services & completion schedule for Lot no. 2. Ref Service Sl. No. 1 – provides the nodal contact for liason within your department.	Please refer SCC clause 8.1

28/5/15

94.	Ref section VII, Schedule of requirements , (2) List of Related services & completion schedule for Lot no. 2. Delays in providing necessary documentation/attestations required to clear consignment from customs & incurring demurrages, additional port charges etc... due to purchaser will have to be to purchasers account.	No amendment is considered necessary
95.	Bidder information form- MILLP will be quoting. There is no authorized representative of MILLP. Pls confirm if we should write 'NONE' in point 6.	Yes
96.	Clause 26 Inspection and Test- Date of inspection call shall be treated as date of despatch.	No amendment is considered necessary Refer Sr No. 23 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
97.	Clause 2.1.g NPV-Net Present Value-8% will be calculated by IDEMI for CMS. In case we quote higher than this value, how would IDEMI evaluate this.	Refer Sr No. 13 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
98.	Clause 28.5 Warranty- The extension of warranty should be for the corresponding period for which the equipment was out of service and it would not be appropriate to extend it for 24 months.	No amendment is considered necessary
99.	Response time for Service- We shall try our best to repair the instrument, however in case if the instrument needs to be sent to overseas manufacturers place then it will take 4 to 6 weeks. In view of the same we request you to please extend the response time for Service.	Refer Sr No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
100.	Please also define the Scope of Work for calibrations and AMC - for Lot no. 2.	Refer Sr No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
101.	Lot No. 2: Item Code: MUM/P/018 - Anechoic Chamber (3m) with radiated susceptibility and radiated emission test system The polyurethane carbon loaded absorbers in Anechoic chamber is an outdated technology and thin film nano technology for EMC absorbers should be considered.	Refer Sr No. 27 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
102.	Lot No: 2 - EMC - ANECHOIC CHAMBER Ref No.-P87. A13 & A5 Field Uniformity frequency from 80MHz to 6GHz But the frequency range mentioned at RI/RE from 30MHz to 18 GHz? Why not the frequency is same for the both ?	Information provided in the bid document is sufficient

Handwritten signature and date: 28/5/15

103.	Lot No: 2 - EMC - ANECHOIC CHAMNER Ref No.- P88. B6 Tender requirement is Polystyrene/ polyurethane absorbers but we have screwing fixation absorbers which is nano technology and we have submitted the letter by hand. Please accept this option also for this point.	Refer Sr No. 27 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
104.	Lot No: 2 - EMC - ANECHOIC CHAMNER Ref No.- P89. B10 We can offer LED lighting EMI proofed then no need to have any system for maintenance and replacement during next 10 yrs and it is benefit to IDEMI. So kindly accept this option for this point.	Information provided in the bid document is sufficient
105.	Lot No: 2 - EMC - ANECHOIC CHAMNER Ref No.- P100. 3.1.10 GPIB IEEE 488/ ETHERNET/ USB asked for tender but we can offer any one of it. Please clarify.	Information provided in the bid document is sufficient
106.	Lot No: 2 - EMC - ANECHOIC CHAMNER Ref No.- P101.3.3 Is it possible to offers 2 Amplifier to cover the 1 to 6 GHz? Please accept and clarify	Information provided in the bid document is sufficient
107.	Lot No: 2 - EMC - ANECHOIC CHAMNER Ref No.- P.101.3.5 RF Switching unit: What is that two amplifier to be added? What is the frequency range for the same?	Information provided in the bid document is sufficient
108.	Lot No: 2 - EMC - ANECHOIC CHAMNER Please provide field uniformity size requirement for the test system above 1GHz?	Information provided in the bid document is sufficient
109.	Lot No. 2 Page 88 Point 6: Hybrid Pyramidal absorber Glu type absorber is contradicting to tender removable absorber requirement	Refer Sr No. 27 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
110.	Lot No. 2 Reference Radiation: Page 89: Frequency range of reference radiation required.	Information provided in the bid document is sufficient.
111.	Lot No. 2 RF Filter:3 (2*4 lines) – Page 9 It can only be 3, 1*4 lines. Please clarify	Information provided in the bid document is sufficient.
112.	Lot No. 2 21-Access hatches – Page 91 We don't have pneumatic jack. Can we propose movable access hatches	No clarification is considered necessary.
113.	Lot No. 2	Information provided in the bid

	Page 95; Regulated power supply : Request to mention voltage, Amps and Phase requirement as it depends on EVT as well	document is sufficient.
114.	Lot No 2 Page 101 – PF Power meter –Our power sensor is USB based. Do we need to quote power meter as it is not required for our system	No amendment is considered necessary.
115.	Lot No. 4 SURGE Simulator MUM/P/020: 1. SURGE Simulator: Bid Specs says Confirming to the latest edition for IEC/EN 61000-4-4 and 4-5. We understand that latest version for the standard is Ed.3. However there are some details as i.e. for Surge equipment when customer mentions that wave shape has to be according IEC 60060-1. According to Ed.3 the definition for wave shape according IEC 60060-1 is no longer valid. A lot of things have changed in new edition for surges, due to the new validation procedure with 18uF Capacitor, we need two CNV's for power supply network (one for 0-16A range and another for 16-63A range) this makes the solution acc. Ed 3 much more expensive than Ed.2. We need to understand what the customer is asking for in order not to be more expensive than necessary. Please clarify this point with and tell exactly what versions must be fulfilled. From our point of view we should go for Ed. 3 makes no sense to offer lower version of Surge generator.	Information provided in the bid document is sufficient
116.	LOT No 4 Surge Simulator MUM/P/020 Test Cabinet: Proper size of test cabinet to accommodate EUT during testing to be provided. There is no maximum size of the EUT defined or type of cabinet specified	Refer Sr No. 28 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
117.	Lot No.4 SURGE SIMILATOR(119) Ref No.- P120. 17 Proper size of test cabinet to be accommodate EUT during testing be provided . What is the max. EUT size? So that we will have suitable size of cabinet.	Refer Sr No. 28 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
118.	Lot No: 5 DAMPED OSCILATORY WAVE IMMUNITY TEST SYSTEM (123) Ref No.- 128. I Performance certificate to be submitted otherwise will not be considered for further evaluation. This point has to be waved since we can't provide the performance certificate. Internationally any manufacturer are not supposed to disclosed who is using our equipment. No customers are giving the performance. If some competitor giving then we need a copy of the same so that we will try to get from our principle for this item.	No amendment is considered necessary

 28/5/15

119.	<p>Lot No: 5 DAMPED OSCILLATORY WAVE IMMUNITY TEST SYSTEM (123) Ref No.- 127 Pulse verification kit. Whether it is optional or it is necessary to IDEMI? Please clarify</p>	Information provided in the bid document is sufficient
120.	<p>Lot No: 5 DAMPED OSCILLATORY WAVE IMMUNITY TEST SYSTEM (123) Ref No.- P128.K IDEMI asked for calibration certificate according to ISO - 17025. But We providemfg certificate only . For ISO calibration certificate would more expensive. Better we suggest manufacturer cal certificate would be sufficient to the IDEMI. Since we provide worldwide with only manufacturer certificate hence there is no problem as such from the other customer. We can provide the calibration certificate for slow and ring wave but we can't provide for fast wave so kindly wave this point.</p>	No amendment is considered necessary.
121.	<p>Lot No. 5 Damped Oscillatory wave Immunity System. Fast Damped Oscillatory: As per Standard IEC 61000-4-18 the FAST DAMPED OSCILLATORY WAVE SIMULATOR Open Circuit Voltage is 450V – 4400V +/- 10%. However it is mentioned in Tender Specs as 250V- 4kV +/- 10%.</p>	Refer Sr No. 29 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
122.	<p>Lot No. 7 Line Impedance Stabilizing Network MUM/P/023 Our LISNs fully compliant to the CISPR 16-1-2. There is no built-in attenuator available as mentioned in Tender Specs requirement.</p> <p>Output attenuators are normally used to reduce impedance mismatch between LISN and receiver. L3-100 does not need any internal attenuator to match the standard impedance and CISPR receivers are, of course, 50 Ohm.</p> <p>Of course, if needed, an external attenuator can be used with any receiver or spectrum analyzer by the user. We can Quote an external attenuator if required.</p>	Refer Sr No. 30 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
123.	<p>lot No. 29 , High Resistance Low Current Digital Multimeter . refer Sr. No. 10 &11 of above lot , you have mentioned Coulombs range in both specs. we believe it may be a typo error, for Sr. No. 11 should read as accuracy instead of range .</p>	Refer Sr No. 34 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
124.	<p>Inspection and test (Point 26.1 & 26.3) of GCC Both the points 26.1 & 26.3 are contradictory to each other, hence the liability of testing and inspection</p>	Information provided in the bid document is sufficient and clear.

 28/5/15

	<p>on who's account (Buyer's or supplier's) needs to be clarified.</p> <p>In our case the country of origin would be Switzerland and therefore requested to clarify how the inspection would be carried out because testing set up would be available Switzerland.</p> <p>Also request to clarify who would bear the expenses of the inspection.</p>	
125.	<p>Requirement of TUR (Test uncertainty ratio)- as per Technical specs of required equipments It should be clearly mentioned, upto what value of TUR equipments are acceptable against each requirement.</p>	Information provided in the bid document is sufficient and clear.
126.	<p>LD clause We request for reduction in LD to 5% against the maximum limit of 10% .Motwane like to bid and like to mention that we would be getting very small amount of the commission/margin from our principle and if delivery delays then 10% LD would be very high and would eat away our whole margin, hence, we request you to keep the LD maximum ceiling at 5% and not beyond that.</p>	No amendment is considered necessary.
127.	<p>Tender status in case of single bid qualification Please clarify, in case only single party will be qualified technically or based on QR, what will be the further course of action.</p>	No clarification is considered necessary.
128.	<p>Tender documents soft copy We request to provide tender copy soft copy in editable format so in order to avoid any typographical errors while preparing bid documents.</p>	Soft copy in secured form of the bidding document is made available.
129.	<p>Authorized signatory on Tender documents Please clarify can resolution be provided instead of POA for authorized signatory because under Companies Act, powers are provided under the resolution.</p>	It is acceptable.
130.	<p>LOT no 3. EFT/Surge Simulator MUM/P/019 Clause T :Training clause U Installation Commissioning and Training has a duplication of training also no clarity on location in case of imported Equipment in case of Clause T</p>	It is clarified that Clause T for training refers to Training of 2 Engineers at Manufacturers facility and Clause U for installation commissioning and training refers to Training at IDEMI Mumbai.

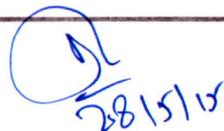

28/5/15

131.	AMC/CMC needs to be bid inclusive of service tax. What would be the impact on the bid if service tax increases/reduces in the future. In GST, there is all possibility to increase the Service Tax in the future. We like to understand how increases service taxes would be dealt with ?	Refer ITB 14.8 (d) Also indicate the prevailing rate of service tax taken into account while submitting the bid.
132.	Lot No 28 of Point No 3 of 7 ½ Digit Nano Volt & Micro Ohm Meter MUM/P/045 Temperature Specification please note RTD (Pt-25,Pt-100,Pt-1000) Basic Accuracy as per Tender stated $\leq \pm 0.005$ °C, where as in actual 7 ½ Digit Nano Volt & Micro Ohm Meter Basic Accuracy can not be better than 0.05 °C	Refer Sr No. 33 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
133.	The bidder shall also furnish list giving full particulars including available sources and current prices of spare parts: Lot No. 2- its 10 years warranty and it's a complex project hence calculating its price for spare parts for 10 years is practically impossible and it also depends upon end user usage methods.	Refer Sr No. 17 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
134.	Page 261: GCC 28.5 7 days of turnaround time is practically not possible as all equipment are imported and most of the equipment can only be serviced from OEM country. Request to increase the turn around time. Also request you to extend the warranty period to the service delayed time rather than further extending to 24 months.	Refer Sr No. 25 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
135.	Page 262: GCC 28.7 Warranty: Maintenance & Repair Services including testing and calibration. Request you to mention the types of testing & calibration required (Eg: Shield Test, VSWR, etc and calibration as per ISO or OEM) whether required from 3 rd party. Also request you to mention the testing & calibration period (eg: Yearly or once in 2 years)	Information provided in the bid document is sufficient. Refer Sr No. 26 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
136.	Materials, Dimensions and rating: Pg 87 Dimensions: Whether to follow internal or external dimensions. We can meet tender internal dimension if external size is 9.1 *5.8*5.7m and if external size is 9*6*6m as per tender.	Information provided in the bid document is sufficient.
137.	Our principal M/s Guideline Instruments Limited, Canada has checked with most of the NMIs regarding	No amendment is considered

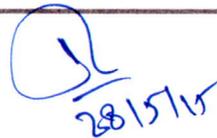

28/5/15

	<p>AC/DC difference for high current for your requirement.</p> <ul style="list-style-type: none"> • NRC, Canada can give AC/DC differences up to 85 Amperes • NIST, USA can give AC/DC differences up to 100 Amperes • PTB, Germany can give AC/DC differences up to 100 Amperes • METLAS, Switzerland can give AC/DC difference upto 100 Amperes • NPL, India can give AC/DC differences up to 20 Amperes and non -traceable certificate up to 100 Amperes <p>So no manufacture in the world can meet 0.01%, 0.025% and 0.05% AC/DC differences respectively for 300A, 500A, 1500A and 3000A. Therefore, you are requested to kindly re-look the required specification and advise so that we can do the needful accordingly</p>	necessary.
138.	Our manufacturing facilities is in Foreign Country and we are evaluating option of quoting in Euro on behalf of our principle. However, we being subsidiary of Foreign Manufacturer in India would prefer to give all kind of bank Guarantee locally in Indian Rupees. Hope this is acceptable. Please confirm.	No amendment is considered necessary.
139.	As per clause no "I" of letter of bid, bidder has to declare about commissions, gratuities or fee with respect to the bidding process but as per clause no ITB 14.8(b) (iii)section II BDS) the bidder has to mention the agency commission in price schedule. Please clarify that the commission asked in letter of bid in clause No. "I" is same as to agency commission asked in clause no. ITB 14.8 (b)(iii)(Section II BDS) which need to mention in price schedule or it is something else, Please clarify.	No clarification is considered necessary.
140.	Whether the prices asked under column no. 8 of "Price schedule 3" and prices asked from Sr No. 1 to 5 in schedule 6 "Price and Completion schedule for Related Services" are same or we need to quote two times in both schedule separately. Please clarify?	No, these are not same.
141.	Please clarify that the training asked in Sr. no 6 of schedule 6 "Price and Completion schedule for Related Services" need to provide at manufacturer's works or at purchaser place in India.	Bid documents are clear in this regard.
142.	What document is required which we have to submit to you to get the project authority certificate and necessary document for custom clearance?	Form 10 – Declaration regarding Deemed Export Benefits specified in Section IV Bidding Forms
143.	Lot No. "17 Precision Energy Standard" Point No. 3 AC current, you have asked current range from 5mA to 200mA, it should we from 5mA to 160A since 160 A is sufficient to perform all test and such high range of current increase the price of equipment unnecessary.	No amendment is considered necessary.

 28/5/15

144.	Lot No. 11 “ CT/PT Calibration System with VAN” it has not been asked for the layout and design for the VAN in the specification same shall be asked.	Information provided in the bid document is sufficient
145.	We understand that in column no-8 of price schedule-3 we have to mention the price in Indian rupees in total with respect price schedule-6 related services i.e. Sr. No. 1 to 6	Both the requirement is different and need to be furnished in separate Forms
146.	We understand that in case of our principal is quoting from out of India and the related services will be provided by us (subsidiary) in India then, you will pay the payment in INR to us only	Yes
147.	In letter of bid clause no-L on page No-51, which type of commission, has to mention by the bidder. Is it agency commission or something else.	Bidding documents are clear in this regard.
148.	Bid Security for each lot – Is this same as EMD? And, are MSME/ NSIC registered firms exempt?	Bidding documents are clear in this regard.
149.	We understand that it is not mandated for bidders to quote for ALL 37 lots – i.e. Bidders can choose and quote only for the relevant Lot(s). Please reconfirm.	Yes
150.	PBG for 10 years?? Banks do not give such extended guaranties? So can these be taken for say, 2-3 years and then extended prior expiry?	Bidder can either extend the existing Bank Guarantee or Issue the fresh Bank Guarantee in this regard. Also, refer Sr No. 21 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
151.	Refer ITB 34.5 – Please reconfirm that custom’s duty amounts for foreign material is not being loaded for evaluation purpose?? Are multiple Shipments permitted??	Bid documents are clear in this regard Multiple Shipments are permitted but not for individual Lots.
152.	Refer: ITB 15.1 If the bidder is not from Purchaser's country, the Bidder is required to quote in Indian Rupees the portion of the bid price that corresponds to expenditures incurred in India.	Bid documents are clear in this regard

 28/5/15

	Participat's Comment: Must we have a split bid – in INR & USD?	Also, refer Sr No. 16, 18 and 19 of Addendum/Corrigendum No. 1 dated 28 th May, 2015
153.	Anechoic Chamber Swing Doors - What is the level of automation (?) – Door Latch Lock/ Unlock automation, or door swing open-close motion too? Our firm's product doors have electrically initiated pneumatic assist lock / unlock operation.	No amendment is considered necessary.
154.	Refer Part B : RADIATED SUSCEPTIBILITY AND RADIATED EMISSION TEST SYSTEM 6. Integrated System Software: The control software for conducting Radiated immunity test as per latest IEC/E 61000- 4-3standard. The following specification are minimum and bidder shall provide suitable software so as to meet the overall radiated immunity test system requirement to meet all the immunity standard:	No amendment is considered necessary.
155.	- Harmonic field strength at each frequency Participant's Comment: The above can be met by software, but requires additional Hardware (Mini Bicon antennas with spectrum analyser) for utilising the software option. Should these equipment be quoted under optional items? - Option: (1) Not feasible (2) During immunity testing the limits of error test for energy meter to be carried out. The software shall be able to integrate with the reference meter to get the error readings during the immunity tests. Participant's Comment: Interface to Reference meter requires detailed technical information of reference meter	The information necessary shall be provided after award of the contract.
156.	Refer: ITB 15.1 If the bidder is not from Purchaser's country, the Bidder is required to quote in Indian Rupees the portion of the bid price that corresponds to expenditures incurred in India. Participant's Comment: Given the above mandate, it is evident that our Bid / final Purchase Order would also need to have two components - a USD part for imported materials, and an INR part for the local materials/ Services. As per standard procedures governing international POs, our parent company,	Bid documents are clear in this regard Refer ITB clause 12, 14, 15 and Form No. 1 - Letter of Bid (Section IV – Bidding Forms) and also clause SCC clause GCC 16.1

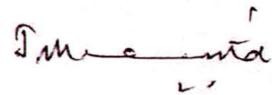

Handwritten signature and date: 28/5/15

	<p>Foreign Manufacturer, can only accept PO in USD (without any INR component). Therefore, for the INR component, the PO would need to be placed on their Indian subsidiary. This would imply splitting the PO into two parts - INR & USD</p> <p>Alternatively, if the above is not feasible, our complete bid shall be in USD (including India Materials/ Services). In this case, the standard procedure is that, for the India materials/ Services, Foreign Manufacturer would place an inter-company PO on Indian Representative, which is an internal arrangement.</p>
