MINISTRY OF MICRO, SMALL AND MEDIUM ENTERPRISES

## MESSAGE

I am delighted that Office of the Development Commissioner (MSME) has brought a document titled "BREAKING THE SILOS: LIST OF FACILITIES & PROJECTS (STATE /UT WISE)". The document gives details of various organizations at field level under their office of this Ministry and schematic interventions in various States / UTs.

The document is of immense use to various organizations & departments as well as stakeholders at PAN-INDIA level.

I appreciate the efforts of the team of officers engaged in bringing the document containing various useful inputs at one place and congratulate Additional Secretary & Development Commissioner for this Commendable job done under his leadership.

  
(A.K. Sharma)

देवेन्द्र कुमार सिंह, भा.प्र.से.  
अपर सचिव एवं विकास आयुक्त  
**DEVENDRA KUMAR SINGH, IAS**  
Additional Secretary & Development Commissioner

GOVERNMENT OF INDIA  
MINISTRY OF MICRO, SMALL & MEDIUM ENTERPRISES

### Foreword

#### **Breaking the Silos**

MSMEs are the backbone of the Indian economy which contributes nearly 45% of the total industrial production. They are considered growth engine of the economy. Over the years, Ministry of MSME and the Office of the Development Commissioner has adopted systematic approach towards addressing various issues pertaining to this sector.

The situation arising out of the crisis of Covid-19 has forced us to think loudly about the role and to develop a strategy so that MSMEs not only survive the unprecedented crisis but also revive their functioning and adopt sustainable measures and be champions in their respective field of manufacturing.

Over the years MSME development organization headed by the Development Commissioner (MSME) has developed a network of Institutions across States and regions. These are known by different nomenclature, namely, MSME Development Institutes, Branch MSME Development Institutes, Regional Testing Centres, Testing Stations, Tool Rooms, Technology Centres, Technology Extension Centres and Enterprise Facilitation Centres. There are various other projects relating to Infrastructure Development, development of Common Facility Centres and projects relating to livelihood. These have contributed significantly towards development of the sector.

A need was felt to consolidate this list which can help various associated stakeholders in bringing synergy in the thought process and actions for a better outcome. This booklet "Facilities and Projects" have been prepared by State Coordination Division of the Office of the Development Commissioner. While appreciating their work, we hope that this information booklet would be useful for all.

  
(D.K. Singh)

## Micro, Small & Medium Enterprises (MSME): A brief

Micro, Small and Medium Enterprises (MSMEs) not only play crucial role in providing large employment opportunities at comparatively lower capital cost but also help in industrialization of rural & backward areas, thereby, reducing regional imbalances. **Ministry of MSME, Government of India**, is fully committed to assist MSMEs in realizing their true potential, to help them capture new opportunities and identify those MSMEs who have the potential of becoming national and international champions.

Development Institutes (DIs), Technology Centers, Tool Rooms and Entrepreneurship Facilitation Centers spread across the country. Various organs of office of the Development Commissioner (MSME) have been shown in following diagram.

The Office of Development Commissioner (MSME) assists MSMEs by implementing a large number of schemes related to credit availability, technology up-gradation, Procurement and marketing assistance, skill enhancement, protection of their Intellectual

Organs of office of the Development Commissioner (MSME)

**The Office of the Development Commissioner (MSME)** is an attached office of the Ministry, headed by the Additional Secretary & Development Commissioner (AS & DC), MSME. Development Commissionerate implements the policies and various programmes/schemes for providing infrastructure and support services to MSMEs through a wide network of its field offices including MSME

Property Rights (IPRs), promotion of latest designs and packaging techniques and many more.

Some of the schemes implemented by the Office of Development Commissioner (MSME) in respect of credit, technology up-gradation and enhancing the competitiveness of MSMEs may be briefly summarized as given below:

## Credit Related Schemes

➤ **Credit Linked Capital Subsidy-Technology Up-gradation Scheme (CLCS-TUS):** The objective of this scheme is to facilitate MSMEs through institutional finance for induction of well-established and proven technologies in the specific sub-sector/products approved under the scheme. Upfront subsidy of 15% on institutional Credit up to ₹1.0 crore (i.e. subsidy cap of ₹15.00 lakhs) for identified sectors/ sub sectors/ technologies is provided in the scheme.

➤ **Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE):** The objective of this scheme is to provide Collateral free loan upto a limit of ₹200 lakhs to new as well as existing Micro & Small Enterprises. The corpus of CGTMSE is contributed by Government of India and SIDBI.

➤ **Distressed Assets Fund - Subordinate Debt for MSMEs:** The objective of the scheme is to provide credit facility through lending institutions to the promoters of stressed MSMEs viz. SMA-2 and NPA accounts which are eligible for restructuring as per RBI guidelines on the books of the Lending institutions. The promoter would infuse the credit in the MSME as quasi equity or sub-debt. This will help Stressed Units (SMA-2 and NPA) in their revival. With the help of this scheme promoter(s) may infuse an amount in MSME unit as equity and thereby enhance the liquidity and maintain debt-equity ratio. In a situation, where an outright loan is difficult, sub-debt with guarantee will provide the requisite financing to the MSME Units.

Under this scheme, promoter(s) of the MSMEs will be given credit equal to 15% of their stake (equity plus debt) or ₹75 lakhs whichever is lower. The maximum tenure for repayment will be 10 years. There will be a moratorium of 7 years on payment of principal. Under this scheme the 90% guarantee coverage would

come from the scheme / trust and remaining 10% from the concerned promoter(s).

The scheme of Distressed Assets Fund - Subordinate Debt for MSMEs is being implemented by Credit Guarantee Trust for Micro and Small Enterprises for giving guarantee to the Lending institutions as per the scheme guidelines.

➤ **Self Reliant India (SRI) fund for MSMEs:** With an objective to expand MSME size as well as capacity, the SRI Fund scheme would be able to channelize diverse variety of funds into underserved MSMEs. The Government of India is setting up Self Reliant India (SRI) fund for MSMEs with a Corpus of ₹10,000 crore. The Fund structure will help leverage PE/VC funds of ₹40,000 crore ; so, the total fund would be of ₹50,000 crore. This corpus will provide equity funding for MSMEs with growth potential and viability;

The SRI Fund, in the form of Fund of Funds (FoF), will be oriented towards providing funding support to the Daughter Funds for onward provision to MSMEs as growth capital, in the form of equity or quasi-equity, for :

- I. Enhancing equity/equity like financing to MSMEs and listing of MSMEs on Stock Exchanges;
- II. Supporting faster growth of MSME Businesses and thereby ignite the economy and create employment opportunities;
- III. Supporting enterprises which have the potential to graduate beyond the MSME bracket and become National / International Champions; and
- IV. Supporting MSMEs which help making India self-reliant by producing relevant technologies, goods and services.

## Infrastructure Support to Develop Clusters

- **Scheme of Fund for Regeneration of Traditional Industries (SFURTI):** SFURTI scheme organizes traditional industry artisans into clusters by providing Technology Support, Marketing Support and Skill Development. The key benefits of scheme are –
    - I. Support to traditional artisans to provide sustainable employment;
    - II. Government of India support up to ₹2.5 crore up to 500 artisans and ₹5 crore for more than 500 artisans; and
    - III. Set up physical infrastructure with CFCs, latest machines, training, etc. in clusters.
- Government of India supports traditional industry artisans to provide them sustainable employment through Hard Intervention in setting up of physical infrastructure with CFCs, raw material banks, latest machines and Soft Intervention in skill development, market promotion initiatives etc. in cluster.
- Government of India gives 90% (95% in NER, J&K and Hill Areas) of Hard Intervention cost and entire cost of Soft Intervention.
- Scheme is applicable for “Existing Artisan” from “Traditional Industries”.
- **Micro & Small Enterprises Cluster Development Programme (MSE-CDP):** The scheme provides financial assistance for establishment of Common Facility Centres (CFCs)/ establishment / upgradation of Industrial area / Estate/Flatted/Factory Complex; [Infrastructure Development (ID) projects] Marketing Hubs / Exhibition Centres by Associations; Thematic Interventions and Support to State Innovative Cluster Development Programme for enhancing the productivity and competitiveness of Micro and Small Enterprises. For establishment of Common Facility Centers, the GoI grant will be restricted to 70% of the cost of Project of maximum ₹20.00 crore. GoI grant will be 90% for CFCs in NE & Hill States, Islands territories, Aspirational Districts / LWE affected Districts, Clusters with more than 50% (a) micro / village, (b) women owned, (c) SC/ST units. For Infrastructure Development, the GoI grant will be restricted to 60% of the cost of Project (₹10.00 crore for Industrial Estate & ₹15.00 crore for Flatted Factory Complex). GoI grant will be 80% for Projects in NE & Hilly States, Island territories, Aspirational Districts / LWE affected Districts, industrial areas / estates / Flatted Factory Complex with more than 50% (a) micro / village, (b) women owned (c) SC/ST units.

## Technology Up-gradation and Competitiveness Enhancing Schemes for MSMEs

- **Design Clinic Scheme:** The objective of Design Clinic Scheme is to promote innovations in designing of the product and enhance the value addition of local products and services. There is a provision of financial assistance of ₹15 lakhs (GoI: Units::75:25) for individual or up to 3 Micro units and ₹25 lakhs (GoI: Units::75:25) for more than 3 Micro units. For Small & Medium units, it is ₹25 lakhs (GoI: Units:: 60:40) for individual or up to 3 Units and ₹40 lakhs (GoI:Units::60:40) for more than 3 Units.
- **Lean Manufacturing Competitiveness Scheme (LMCS):** The Lean Manufacturing Competitiveness Scheme (LMCS) is an initiative to enhance the Competitiveness of the manufacturing sector by imbibing a culture of continuous improvement in order

to increase the overall productivity of MSMEs through application of various Lean Techniques to reduce waste and increase productivity. Financial Assistance for Lean Intervention in MSMEs through Lean Consultants up to ₹36 lakhs (maximum) per mini cluster of 10 units for a period of 18 months or till completion (GoI:Units::80:20; ₹28.8 lakhs: ₹7.2 lakhs).

- **Financial Support to MSMEs in ZED Certification Scheme:** The objectives of the scheme include promotion of Zero Defect and Zero Effect (ZED) manufacturing amongst MSMEs so as to promote adaptation of Quality tools/

systems and Energy Efficient manufacturing, encourage to constantly up-grade their quality standards in products and processes without impacting the environment.

- **Building Awareness on Intellectual Property Rights (IPRs):** The objective is to enhance awareness of MSMEs about Intellectual Property Rights (IPRs) and to take measure for the protecting their ideas and business strategies through Awareness Programmes/Seminars, Workshops, Reimbursement for registration of IP, International Co-operation & setting-up IP facilitation centre across the country.

## Procurement and Marketing Support (PMS) to MSMEs

- The objective is to create awareness and educate the MSMEs about various marketing strategies and enhancing marketability of their products/services. Assistance is available for (A) Participation of Individual MSEs in domestic trade fairs/exhibition across the country (B) Organizing/Participation in trade fairs/

exhibitions (Regional/ National/International) by the Ministry/ Office of DC (MSME)/Government organizations (C) Capacity building of MSMEs in modern packaging technique (D) Development of Marketing Haats (E) International/National Workshops/ Seminars (F) Vendor Development Programmes (G) Awareness Programmes.

## CHAMPIONS Portal

### Creation and Harmonious Application of Modern Processes for Increasing the Output and National Strength (CHAMPIONS)

A Champion Portal for MSME has been launched by Hon'ble Prime Minister on 01.06.2020. It is a single window system for the MSMEs. It has been felt necessary to put up and promote a unified, empowered, robust, bundled and technology driven platform for helping and promoting the Micro, Small and Medium Enterprises (MSMEs) of the country. As the name suggests it will aim at Creation and Harmonious Application of Modern Processes for Increasing the Output and National Strength. Accordingly, the name of the system is

CHAMPIONS. This is basically for making the smaller units big by helping and handholding, in particular, by solving their problems and grievances. Three basic objectives of the CHAMPIONS:

- I. To help the MSMEs in this difficult situation in terms of finance, raw materials, labour, permissions, etc.
- II. To help the MSMEs capture new opportunities in manufacturing and services sectors.
- III. To identify the sparks i.e. the bright MSMEs who can withstand at present and become national and international champions.

## Classification of Enterprises

Ministry of MSME, Govt. of India revised the classification of MSME vide a gazette notification dated 26.06.2020. According to the new classification an enterprise shall be classified as a micro, small or medium enterprise on the basis of the following criteria, namely: --

- i. a **micro enterprise**, where the investment in plant and machinery or equipment does not exceed one crore rupees and turnover does not exceed five crore rupees;
- ii. a **small enterprise**, where the investment in

plant and machinery or equipment does not exceed ten crore rupees and turnover does not exceed fifty crore rupees; and

- iii. a **medium enterprise**, where the investment in plant and machinery or equipment does not exceed fifty crore rupees and turnover does not exceed two hundred and fifty crore rupees.

Exports of goods or services or both, shall be excluded while calculating the turnover of any enterprise whether micro, small or medium, for the purposes of classification.

## Udyam Registration

An Udyam Registration Portal (<https://udyamregistration.gov.in>) has been launched by the Government of India on 01.07.2020 to register MSMEs under the definition.

Becoming a micro, small or medium enterprise. -

1. Any person who intends to establish a micro, small or medium enterprise may file Udyam Registration online in the Udyam Registration portal, based on self-declaration with no

requirement to upload documents, papers, certificates or proof.

2. On registration, an enterprise (referred to as - Udyam in the Udyam Registration portal) will be assigned a permanent identity number to be known as - Udyam Registration Number.
3. An e-certificate, namely, - Udyam Registration Certificate shall be issued on completion of the registration process.

## Techno-Economic Consultancy (Tooling Support & Technical Consultancy)

1. The Technology Centres (TCs) facilitate an integrated development of MSMEs by providing quality Tool, Industry ready manpower, consultancy in tooling & related areas and processes & products development in product groups like General Engineering, Precision Manufacturing, Foundry & Forging, Electronics, Electrical Measuring Instruments, Fragrance & Flavour, Glass, Sport Goods and Footwear designing. These TCs are providing these services across the country.

➤ **MSME Technology Centres (Earlier known**

**as Tool Rooms & Technology Development Centres):** Ministry of Micro, Small and Medium Enterprises (MSME), Office of the Development Commissioner (MSME) in its endeavor to provide the right stimulus for growth of the industry in the country – particularly with the objective of helping the micro, small and medium enterprises, has established Technology Centers across India, many of them through bilateral collaboration of the Governments of Germany, Denmark and the United Nations. These were earlier known as Tool Rooms and Technology Development Centers.

S. No.	Name of the Institute	Year of Establishment	Collaboration	Area of Specialization
<b>Tool Rooms (10 Nos.)</b>				
1.	Central Institute of Tool Design (CITD), Hyderabad	1967	UNDP / ILO	Automation, General Engineering
2.	Central Tool Room & Training Centre (CTTC), Kolkata	1978	Govt. of Denmark	General Engineering
3.	Central Tool Room (CTR), Ludhiana	1979	Govt. of Germany	Auto Parts
4.	Central Institute of Hand Tools (CIHT), Jalandhar	1991	UNIDO	Hand Tools
5.	Indo German Tool Room (IGTR), Indore	1995	Govt. of Germany	Pharmaceutical & Plastic Tools
6.	Indo German Tool Room (IGTR), Ahmedabad	1995	Govt. of Germany	Plastic & Auto Parts
7.	Indo German Tool Room (IGTR), Aurangabad	1995	Govt. of Germany	Auto Parts
8.	Central Tool Room & Training Centre (CTTC), Bhubaneswar	1995	Govt. of Denmark	Aerospace & Precision Components
9.	Indo Danish Tool Room (IDTR), Jamshedpur	1995	Govt. of Denmark	Auto Parts
10.	Tool Room & Training Centre (TRTC), Guwahati	1999	--	General Engineering
<b>Technology Development Centres (8 Nos.)</b>				
11	Institute for Design of Electrical Measuring Instruments (IDEMI), Mumbai	1969	UNIDO / UNDP	Electronic System Design & Manufacturing (ESDM)
12.	Product & Process Development Centre (PPDC), Agra	1985	UNIDO / UNDP	Foundry & Forging
13.	Electronics Service & Training Centre (ESTC), Ramnagar	1986	UNDP	Electronic System Design & Manufacturing (ESDM)
14.	Process cum Product Development Centre (PPDC), Meerut	1986	UNDP	Sport Goods
15.	Fragrance & Flavour Development Centre (FFDC), Kannauj	1991	UNIDO / UNDP	Fragrance & Flavours
16.	Centre for Development of Glass Industries (CDGI), Firozabad	1992	UNIDO / UNDP	Glass Industry
17.	Central Footwear Training Institute (CFTI), Chennai	1996	UNDP	Footwear
18.	Central Footwear Training Institute (CFTI), Agra	1996	UNDP	Footwear

2. Out of 18 Technology Centres (TCs), the first 10 TCs (earlier known as Tool Rooms) provide tooling, moulds, dies, etc. to the industry. These TCs also provide training in the area of tool and die making. Today, the TCs are regarded for being highly proficient in mould and die making technology.
3. Despite being decades old, the TCs are still very useful because the Ministry of MSME has supported these centers by keeping them relevant and abreast with latest advancements in the respective field. The Ministry has been investing periodically to upgrade the TCs by introducing new technologies such as 3D Printing, Glass Machining, CAD/CAM, CNC machining for tooling, Vacuum heat treatment, Robotics and Process Automation etc. These TCs are concentrating on an integrated development of the related segments of industries by way of providing quality tools, trained personnel and consultancy in tooling and related areas.
4. The remaining Technology Centres, (earlier known as Technology Development Centres - serial number 11 to 18) are product specific centers to support MSMEs' catering to specific sectors by rendering technical services to develop and upgrade technologies, processes and products apart from manpower development and training in the specific product groups like Foundry & Forging, Electronics, Electrical Measuring Instruments, Fragrance & Flavour, Glass, Sport Goods, and footwear designing to support these sectors.
5. The facilities of the Technology Centres allow for the design and manufacture of sophisticated tools, parts, components and products in conformity with international standards. The latest hardware and software available at these centres ensure professional design and 3D solid modelling. The production facilities at the Technology Centres offer an array of cutting edge production services to MSMEs.
6. In addition, these institutes provide technical services such as design of parts and components, materials testing, heat treatment, quality control, and technical consultancy related to the product & process improvement. The Technology Centres apart from extending design, development & manufacturing support to MSMEs for complex tools, parts and components (many that serve as import substitutes) have also supported the strategic sectors such as aerospace, defence, atomic energy etc. of the country for their R&D requirements.
7. The Technology Centres philosophy of integrated solution for Indian industrial growth is based on the provision of well structured, modular, hands on industry centric training programmes. All courses are regularly updated to keep abreast with global technological advancements. The intake eligibility for the training programmes range from school dropout to B-Tech level. Training facilities in the above field call for sophisticated equipment to keep pace with the development elsewhere in the world. It also demands a team of teaching staff, who have acquired practical & theoretical knowledge to equip the trainees to act independently and to lead a team on the shop floor. Various levels of courses, viz., certificate, diploma, advanced diploma, post diploma, post graduate diploma and post graduate courses offered by Technology Centres are well accepted by the industry in India and abroad for employment purposes. A number of passed out trainees have also established their own enterprises thereby contributing in the social and economic development of the country.
8. The Technology Centres have also developed special training programmes to meet the requirements at international level. Technology Centres are conducting training programmes for international participants sponsored under various agreements like Technical Co-operation Scheme of Colombo (TCS), Special Commonwealth African Assistant Programme (SCAAP), Indian Technical and Economic Co-operation (ITEC), Aid to Sri Lanka etc. Apart from

assisting State Governments for setting up of Technology Centres, MSME- Technology Centres have also successfully executed international assignments for setting up Technology Centres and Vocational Training Centres as well as training of trainers for developing countries like Zimbabwe, Myanmar, Sri Lanka, Tajakistan etc.

9. All the Technology Centres adhere to the principles of Total Quality Management (TQM). They are ISO 9001-2000 certified institutions and a few of them are ISO-14000, OHSAS-18000, ISO-29990 and ISO-50001 certified. Central Tool Room & Training Centre, Bhubaneswar is also AS-9100 certified for Aero-Space component supply.

➤ **Technology Centre System Programme (TCSP):** Keeping in view the success of TCs in serving MSMEs, the Government felt a strong need to strengthen the TCs network by modernizing the existing TCs and setting up more TCs across the country so that the MSMEs in the un served and low-income states also get

benefitted from such centres. Towards achieving this objective, Ministry of MSME, Government of India is in the process of establishing 15 Technology Centres and upgrading/modernizing the existing TCs under the Technology Centre Systems Programme (TCSP) at an estimated cost of ₹ 2,200 crore including World Bank funding of USD 200 Million. Under this program, work on 13 new Technology Centre is in full swing and the upcoming Technology Centres would be equipped with multiple cutting edge manufacturing technologies, such as CNC Machines, 3D Manufacturing/Additive Manufacturing, Laser / Ultrasonic machining, Robotics and Process Automation, Precision measurement/Metrology equipment, for General Engineering and Automotive Sector, state-of-the art Electronics Manufacturing Facilities, Calibration and Testing Facilities for Electronic System Design and Manufacturing (ESDM) Sector. Out of these, 10 new TC were partially operationalised in December 2018.

#### Locations of New Technology Centres under Technology Centre Systems Programme

S. No.	States	Locations
1.	Andhra Pradesh	Pudi , District Visakhapatnam
2	Bihar	Patna
3.	Chhattisgarh	Borai, District Durg
4.	Haryana	Rohtak
5.	Himachal Pradesh	Baddi, District Solan
6.	Karnataka	Bengaluru
7.	Kerala	Angamaly, Ernakulum
8.	Madhya Pradesh	Bhopal
9.	Manipur	Imphal
10.	Puducherry	Puducherry
11.	Rajasthan	Bhiwadi, District Alwar
12	Tamilnadu	Sriperumbudur
13.	Uttar Pradesh	Greater Noida, District Gautam Budh Nagar
14.	Uttar Pradesh	NTC Mill, Kanpur
15.	Uttrakhand	Sitarganj, District Udham Singh Nagar
